Girnari
MOULDERS

Company Profile

We would like to introduce ourselves as an ISO 9001 : 2008 TUV CERTIFIED firm established in 1994 with an experience of almost 2 decades. We have grown consistently to become a renowned manufactures & exports of Plastic Injection Moulding & Blow Moulding Articles used in Pesticides, Agriculture, Pharmaceuticals, Chemicals, Paints & Tool industries. We have achieved a good name & reputation in this market not by our name but by our quality producte & customers satisfaction.

We have BLOW MOULDING machines with the capacity of 50ml To 5000ml.Production capacity & INJECTION MOULDING machines with 1 Gram TO 500 Grams production capacity at our plant with all the modem amenities & automation necessary for the working of the unit. We have a total moulding capacity of around 150 tons of Plastic Materials per month and we oprate by 24 x 7 a single minute of 365 days.

Our Vision.....

Our Vision is to be the leading supplier of the plastic made materials within the entire region of our sales area. We are continuously striving to achieve the goal.

Our Mission.....

Our Mission is very well set before our eyes to increase our production capacity from 150 MT to 300 MT per month, for which we constantly upgrade our machineries and equipments.

Quality Assurance.....

Quality is the priming feature among the many other features of our firm. Using our well sourced skills we have been able to generate the products which are of major use to our customers. Because of our dominant quality products in the industry we have achieved ISO 9001 - 2008 and also TUV Certification. In the materials receiving department all arriving materials and components are carefully checked in accordance with the latest methods. Our reliable production methods and sales and distribution network are the basis of lasting partnerships with companies throughout industries and trade.

We want to be the consistent performer so we always try to upgrade our products more fruitfully.

Our Team

We have assigned at our place all the employees who are well their duty of work are highly committed towards the upliftment of the firm. We included in our firm the manager, quality controller, researcher, operators, semi-operators and huge number of helpers who help co-coordinately for smooth working within the organization.
